

FOOLISH BAGGAGE

In 1845, the ill-fated Franklin Expedition sailed from England to find a passage across the Arctic Ocean.

The crew loaded their two sailing ships with a lot of things they didn't need: a 1,200-volume library, fine china, crystal goblets, and sterling silverware for each officer with his initials engraved on the handles. Amazingly, each ship took only a 12-day supply of coal for their auxiliary steam engines.

The ships became trapped in vast frozen plains of ice. After several months, Lord Franklin died. The men decided to trek to safety in small groups, but none of them survived.

One story is especially heartbreaking. Two officers pulled a large sled more than 65 miles across the treacherous ice. When rescuers found their bodies, they discovered that the sled was filled with table silver.

Those men contributed to their own demise by carrying what they didn't need. But don't we sometimes do the same? Don't we drag baggage through life that we don't need? Evil thoughts that hinder us. Bad habits that drag us down. Grudges that we won't let go.

Let's determine to "lay aside every weight, and the sin which so easily ensnares us" (Hebrews 12:1)

A FEW QUOTES FROM SATISFIED CUSTOMERS

"I carry guns for a living and I use Eddie's guns exclusively. Eddie's action work is second to none and he diligently addresses the most important point of a firearm *that the reliability is flawless!* I am carrying one of his guns as I write this today. Had Eddie and I been around a hundred years ago, I would have carried his guns then. I do bet on them now and I would have bet on them then."

Clint Smith
President
Thunder Ranch, Inc.

"The best action job that I've ever seen on a Single Action Colt"

Sheriff Jim Wilson
Shooting Times

"Eddie, I wish you had been building my Colts when Jeff Cooper's 'Leather Slap' and the other big 'Live Ammo Fast Draw' matches were being held. I would have had a lot more time to practice. Your 'Competition Unloading Shoot' is pure genius! Now it is guns for the motion picture industry. Your action work, and single action parts are the best."

Thell Reed
Single Action Combat Master
Weapons Specialist for the
Motion Picture Industry

"I was so impressed with Eddie's work, I sent him a first generation 45 of mine. I doubt if this gun shot as well when it originally came from the factory back in 1907. The result of this mastery is that 5 shots went from a four inch spread to a two inch group."

Rick Hacker
Guns & Ammo

"If Colt Single Actions are your game, then Peacemaker Specialists should suit your pistol! I've dealt with Eddie Janis for years, and have found his sixgun work to be right on target!"

A QUOTE FROM AMERICAN HANDGUNNER'S FIELD EDITOR JOHN TAFFIN

"A Colt Single Action that left the factory in near perfect condition in 1907 now found itself in need of a major overhaul 90 years later. It was sent off to Eddie Janis along with a new .44 Special barrel I had on hand saved for just such a project. Several new parts were required, a new cylinder pin and bushing, a new mainspring, a few screws, an ejector rod and spring, and a .44 Special cylinder. The new cylinder and barrel were installed with minimum barrel clearance, an oversize cylinder bolt removed all play in the cylinder. Over nearly a century of use both the trigger and hammer notches had worn considerably and these were both welded up and re-cut. In the process the action was tuned, the trigger pull set at 3 1/2#, and all internal parts totally smoothed in what Janis calls his Gunslinger Deluxe Package.

"When the 7 1/2" .44 special arrived back home, I was in Single Action Heaven! The action is smooth, the cylinder is tight, the trigger pull is clean and crisp. When it comes to Colt Single Actions, Peacemaker Specialists can handle practically anything from the simplest parts request to a total action job to remarking the barrel and beveling the face of the cylinder to making a new Colt look 100 year old to total rebuilding. I recommend them highly. For less than the cost of new Third Generation Colt Single Action Army, which by the way cannot now be had in .44 Special chambering, I have a "New" Colt that is as close to perfection as any Single Action Army can be.
